

Full Name	Fiona Gillespie
Year of Study	3
Rep Role	School Rep – History and Heritage
What has been worked on in the past month?	Communication across the school has been worked on. I have set up multiple meetings with the director of teaching and learning and head of school. We are managing expectations of students during the pandemic and making sure students are informed as new information has come out. The new alleys of the facebook page and getting feedback through the rep email address have been successful in garnering effective and constructive feedback.
Successes from the past month and any Reps Wins	School rep won first school rep of the week award for effective communication and helping students remain informed going into semester B. School rep and course reps organised a meeting 11/12 to discuss approach for semester B and as a pre meet for the upcoming subject committee meetings. Informal course rep group chat increasing, many new positions filled this has lead to getting more effective feedback across all the courses.
Plans for next month	Plan to continue to approach feedback in the same was as appears to be working effectivley. Want to try and make the meetings with the course reps a regular thing if they can be. Have had some issues myself, and others, this month regarding deadlines taking up a lot of time, particularly in the lead up to Christmas. However, the course reps and I are looking at possibly monthly meetings.
