

Volunteer Officer Report October 2019

Zoe Phoebe Hoy

What has been worked on in the past month?

In the past month I have worked on collecting information to help me to improve accessibility on campus, I have had talks with the Students union about providing sunflower lanyards at events to help students with invisible and visible disabilities get the help they need at events such as fresher's fayre so that they can have the best experience possible.

I have also been working closely with Emma, the vice president of welfare and community, to bring about some changes to the accessibility of campus, we are both very passionate about making sure students have equal opportunities to learn and access all areas of campus.

Successes from the past month and any Reps Wins

Successes from the last month have been the changes I am implementing and helping to put into place for next year's freshers' events and fayres to make it more accessible and flow better for everyone.

Plans for next month

My plans for the next month are to take part in group campaigns within the campaigns network as well as continuing to get my campaign planning finalised and organised. I also plan to make the student experience of Lincoln more accessible. using my time here as a guide and the struggles I have faced so far as a starting point, I wish to create a survey and talk to students about the issues they may have faced and how we can support them to improve the student experience.
