

Full Name	Angelica Amor Dolotallas Dahil
Year of Study	1
What has been worked on in the past month?	<p>During this month, I have attended my School Rep training for the year 2020/21. This was really useful and provided further insight into more of the services available for my Course Reps and I can utilise to improve our engagement with the students.</p> <p>I also attended my first Course Management Committee meeting where we discussed on-going and completed issues within the Medical School and plans for the next academic year.</p>
Successes from the past month and any Reps Wins	<p>The training really helped me understand the structure of the Lincoln SU more. It was also great as it helped me reflect on how well I did throughout this academic year and what I could do to improve it. One of these was to improve the interaction between Reps, students, teaching staffs, and the Lincoln SU.</p> <p>With the newly reformed MedSoc, I held a meeting with the President and Vice-President to discuss how we can collaborate together to increase engagement within the Medical School and the Universities as a whole.</p>
Plans for next month	<p>Next month, I will continue to discuss and plan with MedSoc's President and Vice-President on how exactly we can utilise the academic society to enhance the students' experience and development academically and socially. Alongside, I will also be in close contact with VP Education and VP Activities with this plan.</p> <p>In addition, I will keep myself available throughout the summer for any students who are wanting to contact me or ask any questions. :)</p>
