

## **Volunteer Officer Report November 2019**

Sam Brinded – College of Arts Officer

### **What has been worked on in the past month?**

This past month saw the introduction of Speak Weak, replacing module evaluations. I had many conversations explaining the change and also offered support to the School Reps. There were also many meetings which I have attended, especially with a focus on 'One Community', an idea I'm very interested in.

### **Successes from the past month and any Reps Wins**

Nothing from me personally, apart from surviving illness and deadlines. The School Reps for Arts have been doing some great stuff though.

### **Plans for next month**

Continue to try and keep up communication between myself reps, start setting into motion ideas surrounding 'One Community'.
