

Volunteer Officer Report October 2019

Benjamin Samuel Cattle

What has been worked on in the past month?

We had some issues around the reading on a third-year module so after consultation with the student engagement lead and course reps we had the requirements of the module clarified. We've also been looking into involving the school with the festival of creativity this year.

Successes from the past month and any Reps Wins

Obviously the reading issue being sorted was a success.

Plans for next month

Once all the reps have been elected we need to work to bring everyone together and try to figure out any potential problem areas and keep a close eye on them.
