

## **Volunteer Officer Report December 2019**

Sam Brinded – College of Arts Officer

### **What has been worked on in the past month?**

In the last month, I have attended regular meetings, representing the College of Arts as a whole, but also as support for the School Reps. I attended a meeting on 'Speak Week' which was attended by numerous people from across campus. It provided invaluable feedback concerning going forward with the project, which I'm excited to be involved with. I have also worked personally worked with students on issues that they approached me with, as well as approaching students myself for feedback regarding their experiences and 'Speak Week'.

### **Successes from the past month and any Reps Wins**

None personal, though I would like take the chance to thank the College of Arts School Reps for the hard work they've done this past term. Well done!

### **Plans for next month**

My plans for the next month include finishing numerous deadlines, find time to celebrate Christmas and get ready for the next term.
