

Volunteer Officer Report January 2020

Holly Tyers – Community Officer

What has been worked on in the past month?

The main thing that has been worked on in the past month is gathering feedback from other members of the SU about the most effective ways to advertise, in order to encourage as many donations as possible during the food collection. As well as this, I have had communications with the Larder to ensure that the type of food donated is as appropriate to their current needs as possible.

Successes from the past month and any Reps Wins

The main success from the past month is overcoming some of the unforeseen difficulties with the logistics of the campaign and its implementation, and it was partly due to the prior planning from the beginning of the year that these difficulties were able to be managed much easier.

Plans for next month

The following month will be the implementation of the official Campaigns Network Food Collection, where individuals will be encouraged to donate in the SU reception from 12-2pm each day from the 3rd-7th February. As well as manning the donation point directly, we will be providing encouragement across social media, and letting people know about the amazing work that the larder do.
