

Volunteer Officer Report December 2019

Jake Muff – School of Maths & Physics Rep

What has been worked on in the past month?

This month I worked on resolving issues across the years by clearing up communication within certain modules

Successes from the past month and any Reps Wins

We had our Rep Christmas meal which was a great success with thanks to our Director of Teaching and Learning for organising this. Together me and reps also brought about changes in modules such as Advanced Topics

Plans for next month

My plan for next month are to resolve any issues that crop up in modules that are new to the teaching year
