
Full Name	Jack Eames
Year of Study	3
What has been worked on in the past month?	Obviously with the Covid-19 situation, I've been working on insuring that TCA's, or coursework to replace exams where necessary, is fair to all students and no one is disadvantaged because of the situation; some students are still concerned about timings/word counts, however I have assured them that they are fair. A couple of modules have had issues with coursework marks and feedback which is currently in the process of getting rectified.
Successes from the past month and any Reps Wins	More teaching lessons have moved onto Microsoft teams instead of recordings, which are making sessions more interactive and easier to learn from. Staff are also being very responsive to student feedback on the situation, which is helping push changes!
Plans for next month	Priority will be ensuring that exams are run smoothly and nothing goes wrong, and where necessary, push for changes! Also ensuring that feedback and marks for dissertation haven't been made unfair because of the situation, and that it coheres with the safety net that is being put in place.
