

Volunteer Officer Report December 2019

Dannielle Threlfall – School of Computer Science Rep

What has been worked on in the past month?

Worked synergistically with the Head of School to improve staff training when it comes to supervising students on projects.

Successes from the past month and any Reps Wins

Successful communication within the school to address any feedback, and received positive feedback from the course reps showing that the continued communication within the school has been successful.

Plans for next month

To continue working collaboratively with the Student Union and the School of Computer Science.
