

Volunteer Officer Report November 2019

Jacob Ford – LGBT+ Officer

What has been worked on in the past month?

This month we put together two events for International Transgender Day of Remembrance to celebrate and reflect on the lives of those in the Trans community who have paved the way for positive and progressive change. We held a Trans Awareness March and a Reflection Evening and hosted a placard making session for members to attend and put together banners and signs for the march.

Successes from the past month and any Reps Wins

Both of our TDOR events went extremely well; we gained an attendance of 30+ for the march and 50+ for the reflection event which was incredible. Attendees consisted of staff and students of all backgrounds to come together to show their support for the trans community and the work the LGBT+ Campaigns Group do on campus. All of our committee were overwhelmed with the attendance and received great feedback.

Plans for next month

We now move on to planning LGBT+ History Month for February 2020 and we aim to host at least 5 events for this. We want to explore all aspects of the LGBT+ community and promote LGBT+ people and their amazing work in various fields.
