

Volunteer Officer Report January 2020

Sam Brinded – College of Arts Officer

What has been worked on in the past month?

First and foremost, deadlines. After that, I personally supported some students on a couple of issues/projects they came to me with. I have also met with a couple of school reps and represented the college of arts in numerous meetings. I was also grateful for the opportunity to speak to some more reps at 'Rep forum', I hope they found it useful too.

Successes from the past month and any Reps Wins

I handed in my deadlines on time. Also, a student I was helping has had success, which I'm really proud of them for.

Plans for next month

Start to focus on some important events coming up in the uni, especially the 'Festival of Creativity 2020', for which I'm hoping to create a 'one community' focus through this event.
