

## UNIVERSITY OF LINCOLN STUDENTS' UNION

### Vice President Activities Report June 2019

Hello! I'm Abi Brown and I am the new Vice President Activities for 2019/20. I have just finished my three years as a Film and Television student at the University of Lincoln and I spent three years as a member of ULNC (Netball Club). I spent my second year as the social secretary and my third year as the club's president.

#### Thank You

Firstly, I would love to say thank you to all of the students who voted in the previous student elections and had the confidence in me to fulfil this role to the best of my ability. Also, my thank goes out to all of the members of staff and students at the Students' Union who have been so welcoming and giving me the training, skills and confidence I need to create the best student experience for the year to come.

#### Training

We have been extremely privileged at the beginning of this year to have had the guidance and help from the previous Student Leaders to ease us into our roles. All of the current Student Leaders have been extremely busy with training. This has included the history of the Students' Union, health and safety, finances, safeguarding, and strategy. This also includes our roles and responsibility as trustees and the extent of change we can make when representing our students effectively. This training has lasted several weeks, from the start of our role, which has given us the knowledge we require to be successful as a group of Student Leaders.

#### Residential

During the second week of my training, myself and the team went on a Student Leader residential where we worked hard on team building, stakeholder management, resource management and learning about each other. This was a fantastic opportunity for us all to

bond as a team which is vital for the year ahead. We have also started discussing our KPI's, operational plans and ideas for campaigning which have been supported by SMT.

### The Year Ahead

I am so excited to meet everybody and build from strength to strength. Plans are already in place for some big projects and I cannot wait for all of your invaluable input and the relationship that will be built over the next twelve months. I have truly loved every second of this job so far and I will do my absolute best to always be available for a conversation, feedback and progress for all activities throughout the up and coming year.
