

## **Volunteer Officer Report October 2019**

Talia Rose Adams

### **What has been worked on in the past month?**

This month the reps have been picked and I have met with them to discuss the plan for this year. This includes assigning reps main focuses to do with digital promotion of reps, the psychology blog and online rep profiles to help improve engagement and rep visibility. Also, we plan to work on academic engagement in regard to promoting Psychology and SU events and helping to run them. Also, we are looking to set up rep drop ins to increase familiarity of reps and an open space for feedback and looking to start subject specific peer mentoring to provide volunteering opportunities and help students improve in areas they struggle in.

### **Successes from the past month and any Reps Wins**

- We had 25 of the 30 reps come to the first rep meeting
- We have had PG reps collaborating with the UG reps
- I am talking to lecturers that can support us in implementing subject specific peer mentoring and help with digipsych (psychology blog)

### **Plans for next month**

- Have our first rep drop in during speak week
- Work out how the subject specific peer mentoring could work and hopefully get it started
- Get rep profiles put on blackboard and generally try to improve their visibility
- Plan how we will give our updates to the school (likely in the form of a blackboard page or regular announcements) and get it set up
