

What has been worked on in the past month?

This month I have been working with reps to ensure a smooth transition to online learning by making sure everyone has the up to date information and encouraging feedback through the SU survey for how online teaching has been working so far.

I also participated in the first online SRG to discuss how other schools have been working with online teaching.

Successes from the past month and any Reps Wins

Recently we found out who will be the next school rep, so congratulations to Millie who will be taking over as school rep. As a school, we also hit the 50% threshold for NSS way before the deadline – hopefully, more students continue to carry out the survey.

Plans for the next month

Next week we will be finding out what the replacement will be for our exams and if any students have concerns/queries I will be on hand to help deal with them. Unfortunately, because of Coronavirus, events such as subject committees and school action days have been cancelled but students are still encouraged to contact me with any concerns via email
