

Full Name	Patrick Barco
Year of Study	3
Rep Role	College Officer - LIBS
What have you worked on over the past month?	<p>I have been involved with several things within my college. Firstly, I have attended and chaired my Rep Hub alongside my School of rep for Management. We have managed to write down the issues that were raised and I will be raising them to the relevant people to get them resolved.</p> <p>I have been attending several meetings to look at the issues within my college such as student engagements and opportunities being published by the GET team.</p> <p>Also, I have attended several events, such as Diwali Festival, LIBS Coffee catchups, the ISA party, and the ISA Manchester trip. These events were opportunities for me to talk to students and make them aware that we are here to support and represent them.</p>
Successes from the past month and any Representative wins?	<p>I have managed to talk to a few students regarding their opportunity to put themselves forward to be the school rep for management – I have provided them a complete set of links and information to read through.</p> <p>A course rep for Work-based distance learning was successful in his interview and is now in place. I will be meeting with him once I receive his availabilities.</p>
What student feedback did you receive this month and how were issues resolved	<p>A student from AFE raised an issue to the AFE school rep regarding an assessment briefing not being released within the time frame and the due date for the assessment is approaching closer to time. This was raised to me by the school rep for confirmation and I have advised them to raise it with the relevant module leader and if this hasn't been resolved then they can email me, and I will do my best to resolve this.</p>
