

---

<b>Full Name</b>	Jack Eames
<b>Year of Study</b>	4
<b>What has been worked on in the past month?</b>	The past month there has been a large focus on first year students as this is a completely new and unusual (circumstantial) environment for them; the schools reps and myself have been ensuring that we are reachable and approachable for them so we can help in anyway possible. Further continuation with the STEM for ALL campaign - there's been many successes with this this month.
<b>Successes from the past month and any Reps Wins</b>	I had a meeting with the senior leadership team for the college where we discussed my goals for this year (mostly the campaign), as well as their goals for the college. Many of our ideas and goals overlapped which is very positive as the college is always striving to be as modern, forward-thinking, and inclusive as possible. There is a lot of exciting plans in the woodwork and they'll be announced throughout the year. The campaign will also be a major discussion point during the next academic board for the college, enabling reps and staff to openly discuss inclusivity issues that lie within academia and what we can strive towards to bridge the gap. It will also be further discussed within 'college leadership team' (CLT) meetings to ensure this is an ongoing discussion and to encourage staff members to make changes and see the positive outcomes of the campaign.
<b>Plans for next month</b>	Announcements for the campaign will begin and you'll be able to start proactively getting involved with it! I will be continuing to sit on other committees and highlighting it to further university staff and students when appropriate. I will also be working more towards the introduction of 'diversity leads' within the schools!
