

Volunteer Officer Report October 2019

Grace Tompkins

What has been worked on in the past month?

I've taken up the post and have attended training and two rep meetings. The health and social care school are looking to set up a society.

Successes from the past month and any Reps Wins

Feedback from a nurse course rep year one for the Inter-professional Education Event has said that the event was very positive with a high amount of attendance and collaboration between professionals which is key for better service for the patient.

Plans for next month

Health and Social care school have a meeting to set up the society which has been arranged for early November. The first rep forum is happening on the 28th of October allowing us all to meet.
