

## **Volunteer Officer Report October 2019**

Ellen Florence Mcsweeney

### **What has been worked on in the past month?**

In the last month we have had our first department meeting which has helped gain more feedback about the first few weeks back at university. I am still getting to know the reps of this year and cannot wait to see what can be improved.

### **Successes from the past month and any Reps Wins**

There hasn't been any direct successes this month, but I hope there will be now students are settling into their roles.

### **Plans for next month**

In the next month, I hope to make more contact with reps and improve on the amount of feedback given. As well as this, I would like to encourage students to come forward to their reps with feedback, instead of staying quiet with problems and queries.
