

Name:	Mohit Bulchandani
Position:	Vice- President International
Report Date:	23/04/2020

Manifesto Point	Updates	
International students are satisfied by the services provided by the SU	Progress from last month: Plans for next few months:	<p>The key things that I have been working on this month mainly involve getting feedback from international students through different channels, i.e. through virtual catch ups with LIBS which happens every Tuesday and Thursday, through email, social media channels and the Facebook Live QnA every Tuesday. I have also been working to create a petition with other Students' Unions specifically for international students.</p> <p>The next few months involve working to create a Pen Pal system for international students that will be joining us in the future and for them to get help in various aspects from current students. This will help people know more about the UK culture and various other queries that they may have prior to joining the University of Lincoln.</p>
To Spread cultural awareness through different cultural events and trips	Progress from the last meeting: Plans for next few months:	<p>I have been working alongside Emma and Abi to prepare a 'Lincoln Together Training' for sports/societies/academic societies for the upcoming year. This campaign was initiated last year by Abi and Emma and was a very successful campaign. I will be providing information and training for racism, anti-Semitism, xenophobia and provide an overall cultural awareness training as well.</p> <p>The plans for the next month is further celebrate the festivals/cultures online to the best of extent that we can and also work on my handover presentation for the various activities and cultural celebrations that could be celebrated in the upcoming years as well.</p>
500 Students are members of International students' Association	Progress from the last meeting: Plans for the next months:	<p>The International Students' Association is a social group where all international students can interact with other international and home students. The automatic enrolment for all international students has been completed which has raised the number of ISA members to over 2000 members.</p> <p>The plan is to get home students to interact with international students which would happen by them being members of the International Students' Association. In this time of uncertainty, we all</p>

		<p>must come together as one community and both home and international students should help each other where and when they can and support each other in these difficult times.</p>
<p>Members of the ISA are Satisfied with the International Students' Association</p>	<p>Progress from the last meeting:</p> <p>Plans for the next months:</p>	<p>An ISA Forum was virtually conducted this month virtually to get feedback from international students, it was a great way for me to find out further information on how online learning is going for them and how we can better support them in the various issues that are being addressed nationally, whether it is accommodation issues, academic or financial.</p> <p>Creating more ways to catch up with international students since a lot of them would have questions regarding the various decisions that are being made both by the government and the University.</p>
<p>Housing Options for February Students</p>	<p>Progress from the last meeting:</p> <p>Plans for the next few months:</p>	<p>With the February students now settled into the university and their accommodations as well the next steps for the completion of this KPI would be to find out whether the students are happy with their accommodations and the contract length that they have received from their accommodations as well to get a clear idea on what the students require moving forward.</p>

<p>Student Interactions</p>	<p>Virtual ISA Forum LIBS Virtual Catch ups Facebook Live QnA Men's Rugby Union Online Quiz Social Media Interactions</p>	<p>Committee & University Staff Interactions</p>	<p>Exec Catch Ups Catch up with Student services LEAP Meeting Speaking to other Students' Unions about current situation Students Virtual Community – Working Group Online Academic Offenses Committee Board of Trustees meetings Lincoln Together Campaign catch up Executive Committee meetings Catch up with Mark Page and Georgia Suggestions catch up</p>
------------------------------------	---	---	--

Summary	<p>April has been mainly about getting feedback from students about how they are finding online teaching, about accommodation issues, financial issues, and about academic issues as well. The key role that all student leaders are making sure they step up to in these uncertain situations is to sign post students to the various services available at the Students' Union and the University as well. The University overall has been very supportive to all students and the students' union as well and I would like to extend my gratitude to all staff members both at the SU and University for their continued and brilliant support.</p>
