
Full Name	James Morris
Year of Study	3
What has been worked on in the past month?	Since being elected earlier this month, the committee has met and spoke about the direction that the Environmental Campaigns Group is going this year with all that is going on. We are in the first few stages of organising a series of different campaigns, on several exciting topics, in which we are looking forward to presenting to the Environmental Campaigns Group. This year your feedback matters so much to us so we look forward to reaching out and hearing what you have to say.
Successes from the past month and any Reps Wins	There have been 2 nominations for both the Publicity Lead and the Secretary in the current Bye-elections , which means by next week we will have a full Committee! This week I attended my first Environmental and Sustainability Committee where I was able to represent students, as well as gain a greater understanding of what different environmental and sustainability projects are being done all over campus and I am excited to share with you what I learnt.
Plans for next month	We are really excited to introduce and work with our newly elected committee members. With our team expanding we hope to bring forward new and exciting ideas for campaigns as well as being more active on social media, including setting up a group chat to gather feedback, share resources and articles and talk about all things Environmental!
