

## **Volunteer Officer Report October 2019**

Edward John Foster

### **What has been worked on in the past month?**

Over the past month I have been ensuring the rep elections ran smoothly and making sure each year knew that the elections were taking place. Since then the elections have taken place and each year group now has 4 reps to represent them

### **Successes from the past month and any Reps Wins**

Last week all the reps had their training, which reportedly went very well. Now the course reps are equipped to represent their course mates on any issues that they come to them with.

### **Plans for next month**

During the upcoming month, the school will have its first subject committee, which will give the reps, myself and the teaching team the first chance to sit down and discuss things that are going well and what needs to be worked on. Next week will also be the first rep forum, where all the reps will come together and get a chance to discuss issues University wide.
