
Full Name	Callum Roper
Year of Study	2
What has been worked on in the past month?	<p>As we all know it's been a difficult few months for a lot of students. The uncertainty created through Covid-19 has left many of us worried about a number of things. One of the main things under my remit that students are concerned about is the issues surrounding housing that the pandemic has thrown up. I am speaking to students to understand the variety of issues they have and ensuring those issues have been communicated to the SU and have been using social media to communicate information to you at this time. I would reiterate that if you have any issues whatsoever, community related, don't hesitate to contact me and I will do my utmost to help you.</p>
Successes from the past month and any Reps Wins	<p>I have been speaking with students who are currently advocating for a Housing officer in the SU, to try and get a role created that will help me in my job of representing you on that broad and important issue. On top of this I've spoken to other officers about plans for next year and looking to representing students in the next academic year whatever that may look like come October.</p>
Plans for next month	<p>Next month is a continuation of planning for the next year and putting together a plan that will be effective in the current social distancing measures. I also will be working with Emma and the SU to ensure students are up to date on their rights as renters at this time and they are given the tools and representation if they have any complications with their tenancies in light of Covid-19 and its impact on student renters.</p>
