

## **Volunteer Officer Report December 2019**

Rhys Davies – Societies Officer

### **What has been worked on in the past month?**

Over the last month, we've welcome so many new societies which is amazing! This includes new academic societies too which is great to see. We also ran the 3rd 8 out of 10 Swans qualifying round, and we have our last qualifier in late January - if your society would like to take part then let us know!

I'm also working on a society report system with Abi and the Activities Department. This means that we're going to trial a system where each month, each committee fill out a form that lets both myself and Abi know what you've been up to this month and your wins and achievements. There are a lot of societies that sometimes we struggle to get hold of, so this is the perfect way to get that all important feedback! This idea was first run past committee members from various societies at a Hubs meeting.

### **Successes from the past month and any Reps Wins**

8 out of 10 Swans went amazingly well and we can't wait until the last round. Many more new societies, and a new Societies Assistant so hopefully all your queries will be answered super-fast!

### **Plans for next month**

Next month will be quite quiet, as we don't come back until halfway through. We've got Refreshers Week and 8 out of 10 Swans. It is also coming up to the Students' Union Elections... so what role suits you? Drop me a message if you're interested in the role of Societies Officer.
