

Volunteer Officer Report January 2020

Bailey Marchant – Environmental Students' Officer

What has been worked on in the past month?

The past month has been spent advertising the Enviro-Fayre and organising the blind book sale which raises money for the Australian bushfires. We attended the refreshers Fayre and were successful in making contacts.

Successes from the past month and any Reps Wins

The Enviro-Fayre has reached 261 interested or going members on the Facebook event. We had our first full committee meeting with our new secretary. We have reached out to members to ask for volunteers for the book sale and Enviro-Fayre and received lots of engagement. We gained 4 new members from the freshers Fayre.

Plans for next month

Conduct a wrapping workshop for volunteers to help wrap the books for the book sale, run the book sale and gets LOTS of important student feedback from the Enviro-Fayre. From there my focus is to spend time responding to that feedback. Lastly, get involved with as much of green week as possible.
