

---

<b>Full Name</b>	Jack Eames
<b>Year of Study</b>	4
<b>What has been worked on in the past month?</b>	The school reps and I have been ensuring that the transition to online learning by the 10th December will be smooth and that all elements that need to be covered will be covered. Any lab practicals that were scheduled after this date will either be rearranged in semester B or will be taught online.
<b>Successes from the past month and any Reps Wins</b>	I spoke with the school of pharmacy about how they incorporated a 'diversity lead' into their school, and the since success of it. I will now be taking this forth to other schools to implement to which they seem eager to get on board with!
<b>Plans for next month</b>	Making sure that the transition back to full online learning is smooth, and that alternatives that were discussed are followed through with. I'll make sure to reach out to as many students as possible to hear about how their experience is going, and whether any issues need resolving or could be improved if this needs to happen again.
