Volunteer Officer Report November 2019

Dannielle Threlfall – School of Computer Science Rep

What has been worked on in the past month?

Still improving communication between students and staff. Creating a better relationship between the course reps so that there is continuous communication, so that we can work as a team.

Successes from the past month and any Reps Wins

This past month has been a successful month. There has been excellent communication between students and staff. Issues that have arisen have been sorted quickly, meaning that the Subject Committee Meeting was relatively short and successful.

Plans for next month

To improve communication between the postgraduate students and ourselves.
