

<b>Full Name</b>	Angelica Dahil
<b>Year of Study</b>	2
<b>Rep Role</b>	School Rep – Medical School
<b>What has been worked on in the past month?</b>	<p>As with the previous months, last month has also been moving smoothly. Our first Learning Committee Forum meeting has occurred and was successful. Prior to this, the course reps have been working on collecting feedback ready for the LCF.</p> <p>Post-LCF, I managed to create and hold a Teams meeting with the Course Reps (Yr 2 and Foundation year only) to discuss the Action Points we need to complete before the next LCF (around Feb). The majority of the actions we are to do is to collect feedback for the School on ways to enhance Student Engagement with regards to Personal Tutoring sessions and Weekly Plenaries and find out the usability of the MyNottingham App amongst the medical students.</p> <p>Continually, I am also working on my Instagram Rep page @lincoln.medicalrep</p>
<b>Successes from the past month and any Reps Wins</b>	<p>Holding a Post-LCF meet with the Year 2 and Foundation Year Course Reps have been a Rep Win for me because ensuring there is fluid communication between the team is one of my KPIs for this year. This has definitely allowed us to plan ahead and discuss what each person has to do, as well as, strategically decide when to collect feedback from the students so they won't feel bombarded with surveys.</p> <p>The LCF meeting ran smoothly and helped address several student feedbacks. For example, from the feedback collected by the year 2 Course Reps, many students had concerns and queries regarding the next year's BMedSci and Placement. This matter was raised and addressed by the Medical School by holding a Teams meeting/seminar covering what next year will entail and enabling a Q&amp;A session to occur. This has proven to be very useful amongst the Year 2 students. Rep Win!!</p>
<b>Plans for next month</b>	<p>Next month, the Course Reps and I will continue to work on collecting feedback, specifically on the points raised by the School, and addressing student concerns.</p> <p>As always, I will continue to utilise the social media platform to provide updates, tips, and information.</p>
