

Full Name	Daniel Fitzer
Year of Study	3
What has been worked on in the past month?	This past month I've attended and been involved in numerous meetings covering a range of different topics. I attended a LIBS academics board meeting with some of the lecturers from the school. I attended a drop in alongside other reps with the college director of education Elaine Clarke and then represented students at the college education and student life committee meeting. In addition, I've also been involved and spoke at the subject committee meeting for accountancy and finance and the economics community committee meeting. I attended a meeting with the VPE and was also invited to give feedback on proposed questions for a questionnaire for feedback that's being worked on, filling in for the college officer position that was vacant at that time.
Successes from the past month and any Reps Wins	At the academic board meeting I was able to speak to the head of the business school Craig Marsh and many of the lectures in LIBS and give feedback on how the student body felt about the term and how it was going as well as how effective the changes that were made due to Covid was, as well as raising concern about a topic that I had been told was an issue for some students. I was also able to give feedback in the college education and student life committee meeting to the college director of education on events that have been running in the business school. In the accountancy and finance committee meeting I gave feedback on the student bodies thoughts on how the term was going and raised some issues that I've discussed with students, as well as discussed the role of personal tutors and the role of communication between lecturers and their students. In the Economics community committee meeting similar points were discussed as well as the effectiveness of the A/B timetable system
Plans for next month	I will continue to make myself available for the virtual droppings as well as monitor my rep email for any questions or issues that need to be raised. Along side this I'll continue to attend necessary meetings such as the SRG meetings and Rep forums. I have also been invited to attend the accountability & insight sub-committee meeting where I will be providing constructive feedback on the SU's sabbatical trustees achievement so far this year in relation to their objectives and KPI's
