| Year of Study | 2 |
| What has been worked on in the past month? | <p>In the past month, I have had meetings with the VP wellbeing and community and the student's union to discuss the introduction of sunflower lanyards on campus as well as at events and how we are going to do this. These meetings also involved discussions about providing sunflower lanyard training to university staff to make sure staff were aware of the lanyards meaning.</p> <p>I have also had meetings with the VP wellbeing and community to discuss another amazing project that a lot of the other officers and their committees are also working on. My committee is helping me with this wonderful project, and we have made quite a headway.</p> <p>I have had many meetings with my committee to discuss many things including the accessibility report, sunflower lanyards, student housing accessibility, concerns about being back on campus and support for disabled students leaving university, and having job interviews. I used this time to collect feedback and then relayed it back to the Students union with suggestions and questions to the relevant people. Gathering feedback from my committee about their experiences of university and how we can use those to improve and get more involved this year with students.</p> <p>I have also attended meetings regarding the Accessibility report myself and the previous VP welfare and community wrote. These meetings were to discuss the findings from the report and the outcomes that have either resulted from this report or are being worked towards. The current VP campaigns and environment are now working with me on this so that we can achieve the best outcomes possible.</p> <p>This month I joined a teaching and learning panel which means that I helped to review online teaching and learning materials that lecturers proposed to use this year. My aim being on this panel was to make sure that accessibility was key so that everyone could have the best learning experience possible whatever happens.</p> |
| Successes from the past month and any Reps Wins | <p>The past month I have attended meetings regarding the Accessibility report. These meetings were to discuss the findings from the reports and the possible outcomes that can be worked towards as a result. During this meeting, it was found that several of the issues raised have now been resolved or are ongoing with plans in place for the future to resolve them. It was also decided that the accessibility report shall be an ongoing and changing report so that it can be added to when there is a need so these issues can be highlighted in one place making it easier to keep a record of what has been done.</p> <p>The past month I have collected a lot of feedback from students about various things and have been able to give this feedback to the student's union who were able to answer questions students Had. This feedback had also prompted things to be thought about that were missed so it is vital.</p> |
| Plans for next month | <p>In the next month, I hope to continue to hear about the accessibility report from the university and their plans to improve upon and resolve the issues that were highlighted in the report.</p> <p>In the next month, I will have had meetings with the university and the student's union about sunflower lanyards and hope to be able to launch</p> |

them in time for the start of term.

In the next month, my committee and I will continue to provide support for students during this difficult time through email and social media.
