

UNIVERSITY OF LINCOLN STUDENTS' UNION

Vice President International Report

Get involved

In the past month, I attended the K wave society end of year showcase, We are Lincoln award, SU award 2019, I also spent time talking to our students through the less stress more success campaign at the beginning of this month.

International end of year Quiz

The last International event of this academic year – the International quiz happened on the 24th May in the Swan. There were 15 students attending on the night with 4 groups, and there were prizes and free non-alcoholic refreshments provided for students. I have been spending my office hours doing research and writing the quiz, the questions were about cultures, languages, and international knowledge.

Study Group students

The recent updates from the study group are that there are 15 students from the study group interested in being a study group buddy for the next academic year, we are currently planning to have a briefing session with those students about the role as well as potential training. We have invited a current international volunteer to come along to the meeting to share the experience with them about being a volunteer, the meeting will happen on the 30th May.

You are not alone campaign

I have invited 43 students and staff to get involved with the 'you are not alone' campaign video, our marketing team is currently helping me put the short videos and interviews together for the final campaign video, the campaign will launch on the first week of June.

Others

I also spending my office hours doing handover presentations to make sure the current project can smoothly pass over to the next VP International.
