

Full Name	Natasha Kirchin
Year of Study	3
What has been worked on in the past month?	The past month has primarily focused on TDOR. We worked with the multi-faith chaplaincy to put together a virtual remembrance service. This included reading, a speech put together by Riley and 2 minutes silence. We also hosted a watch party of Disclosure, which we plan on re-doing as there were a few technical issues and didn't run as smoothly as planned. This month has also been spent gathering information from students on the name changing system. A lot of students have issues with changing their name through the university and so I've been talking students to students to get their feedback on the process in order to help improve it.
Successes from the past month and any Reps Wins	As mentioned above we had a very successful TDOR service. We had good involvement from all of the SABBs and the volunteer officers. The service also allowed us to continue working closely with the University Chaplaincy.
Plans for next month	The next month will continue to chase up reports of students having issues with changing their name and working to make the process easier for students. 1st of December also marks World's Aids day and I'd like to commemorate this as a committee with some social media posts. This month, with the lead up to Christmas, I want to focus more on just supporting students. Christmas is a hard time for a lot of people, especially those who don't have a good relationship with their family. That, combined with all the COVID rules, this month will be hard for a lot of people and so I want to focus more on just offering support to people.
