

UNIVERSITY OF LINCOLN STUDENTS' UNION

Vice President Welfare & Community Report June 2019

Hi Everyone – Emma here, your new Vice President Welfare & Community! Although we only started two weeks ago, June has already been a busy month.

Handover

We started with handover week, working closely with Grace to understand more about the specific projects being worked on currently, from blood donation to university recycling, and to understand more about the responsibilities of a Student Leader. The rest of the week consisted of more training on how to be a Trustee, how the Student Union works and department specific knowledge, such as health & safety and finance.

Residential

For the second week of training we've been on residential, working on team building and our manifestos for the year (lots of exciting plans to come!). A few of the projects I'm looking into include the environment and what we can do to help, accessibility on campus and looking at the student experience regarding housing.

Training

The next few weeks will be filled with more training and meeting more SU and university staff members to understand more about our roles and how we can achieve the most within the year. I can't wait for the year ahead and look forward to meeting as many students as possible over the coming months!
