
Full Name	Angelica Amor Dolotallas Dahil
Year of Study	1
What has been worked on in the past month?	<p>The past month, the course reps and I have been working on the feedback that we received on the previous month. Such as finding ways a integrate the different years together more, working on changing our clinical placements according to feedback, etc.</p> <p>Unfortunately, due to the current situation of this global pandemic, everything has been halted and no further discussion has been carried out.</p>
Successes from the past month and any Reps Wins	<p>We have successfully been able to carry out the elections for our MedSoc (medical society) and are now in the voting period. It was great to see so many medical students nominating themselves for the roles available. This way, the teams will be ready to start making plans for next year on activities that will involve all of the medical students. We have successfully made the placements longer, which were one of the feedback the students gave.</p>
Plans for next month	<p>I will continue my role as a School Rep to collect and work on any feedback I received from students.</p>
