
Full Name	Jack Eames
Year of Study	3
What has been worked on in the past month?	Ensuring that TCA's have run as smoothly as possible and directing any feedback regarding it to programme/module leaders. There were some issues regarding referencing not being essential for every exam and therefore confusing students, but some clarity has been made on the issue.
Successes from the past month and any Reps Wins	Getting clarity on referencing issues within TCA's. There was an online 'monthly moan' held for all course reps within Life Sciences to try and weasel out any small issues that could easily be rectified, and I'm sure the reps would agree that it was a success! Might be something that needs to be held more regularly in the future.
Plans for next month	Within the next week, third year students get their results, grades, and feedback for their final year projects; there is gonna be a main focus on ensuring that everyone is happy and that there is help available for those that are unhappy or confused about feedback/marks. We wanna give everyone a fair and equal chance at the best grade they can get.
