

Volunteer Officer Report October 2018

Glen Allison – College of Arts Officer

What has been worked on in the past month?

I attended CAAC and was involved in the selection of external examiners for the college. This was a crucial stage as this will affect the entire student body. I also raised the issue of availability of book at GCW Library. I was assured that the library are committed to stocking an adequate supply of resources and they are looking to stock core texts as e-books. Issue raised by student with regards to Adobe Software for his course. Currently awaiting response from IT about this issue.

Successes from the past month and any Reps Wins

No rep wins at this time, however, commitment appears strong from all school reps. Managed to secure external speaker for VP Welfare & Community if required at Trans & LGBT+ Awareness month.

Plans for next month

Attend programme leader lunch and continue to support my school reps and course reps in achieving their goals.
Chase up Adobe Software for relevant students and find out why this wasn't automatically available at the start of academic year.
