

Volunteer Officer Report November 2018

David Maidwell – School of Chemistry Rep

What has been worked on in the past month?

I had a TEF meeting with Tommy and Ruth regarding the Forensic subject level TEF submission

I have attended the first subject committee meeting of the academic year where I got to meet reps, talk about any issues they have had and also organising a christmas event

Continued notifying foundation year students about events in within the school so they are included

Working on first coursemate submission with one of my reps

Attending the first Chemistry society event

Successes from the past month and any Reps Wins

The newly founded Chemistry society and forensic society are off to a great start and are looking to possibly plan a joint christmas event - Academic societies are great!

great rep turnout at subject committee meeting

Reps have been improving independent learning pushing for textbook chapters for every lecture

Plans for next month

Strengthen links between academics and the societies

Continue contributing to TEF

Work with course reps to improve the school and look for any suggestions from the student body on ways to make the university a better place
