

## **University of Lincoln Students' Union Volunteer Officer Report**

**DATE March 2018**

### **NAME OF ROLE: People and Organisations rep**

Over the past month I have met both the programme leader and the head of school to discuss matters that were going on in our school. Everything this month has gone smoothly and we have had very few problems. I have attended the subject committee meeting and spoke on behalf of students and we discussed student satisfaction and the deterioration of third year attendance especially on the business and management programme.

I have also helped out on offer holder days to encourage potential students to choose Lincoln as their university of choice.

Over the course of the month there have been very few problems, students seem to be enjoying their course.
