

Volunteer Officer Report February 2019

Kyle Murfet – Accounting and Finance School Rep

What has been worked on in the past month?

In the past month there has been a committee meeting for economics which allowed for a healthy discussion over various topics in relation to the interests of the students. There was a lot of useful feedback given which can hopefully be built on over the next few months.

Along with this we had an Economics Society social on the 21st, which was the first to have some 1st years come along and which gave a good foundation for there to be a more united set of students on the course.

Finally, there was Action Day, which allowed me to get some insight into how people in the department think I'm doing as School Rep. Not only that, but Action Day gave an opportunity for students to give opinions on an array of different things in the department.

Successes from the past month and any Reps Wins

- Feedback given in committee meeting and Action Day
- Successful Economics social

Plans for next month

Next month I want to make myself more visible to students in the department so that they know they can come to me with issues, as at the moment I'm unsure as to whether they know who I am.
