

UNIVERSITY OF LINCOLN STUDENTS' UNION

Vice President International Report

New international students

With new Erasmus and spring term master international students arrived in Lincoln, I have been invited to deliver presentations to all of them introducing the services and opportunities that the SU offers, and introduced the welcome events and trips for students to take part in.

International welcome social

With new semester started, I have organised an international welcome social event for international students on the 25th January in the Swan, we provided free chips and non-alcohol drinks. New international students had the chance to talk to returning international students and play board games together.

Lunar New Year celebrations

During the Lunar New Year week, I have organised different events for students to take part in and share cultures around campus. The calligraphy event took place on the 4th February in Tower Bar, students learnt how to write "Happy New Year" in Chinese calligraphy and tried our new Lunar New Year menu. Also on the 5th February, I was selling dumplings outside of the SU to students, it was a good way to celebrate and share cultures with all students on campus.

Study group students

I have been working with student voice department closely and delivering the Study Group Buddy scheme to Study Group students. As all of the study group students are based in Village Hall, some of them are not aware about different opportunities around the campus, a buddy scheme to pair students up with current university

students will be a good way to engage Study Group students more in the university environment. Also on the 21st February, myself and Amy (student insight coordinator) went to Village Hall and did a pop up fayre, we had a chance to talk to lots of Study Group students, and talked to students with all the events and opportunities that they can take part within the SU.

Airport pick-up

On the 9th February, I went to London Heathrow airport alongside Business school staff to do the Airport pick up service for new international students. On the day we brought back 16 international students from different countries and I took them to their accommodations and guided them on where can they get stuff for their accommodation.

International Quiz

I have been using my office hours doing research and writing the international student Quiz which will happen on the 22nd February, the theme of the quiz is based on international knowledge and cultures.

Other activities

I have also attended the bowling activities with the Campaigns Network, and took part in the LUGS & Women's Basketball Quiz in the Swan as well as Pole society's taster session alongside Grace.
