

University of Lincoln Students' Union Volunteer Officer Report

DATE February 2018

NAME OF ROLE: People and Organisations rep

Over the past month I have met with the programme leader because of funding, it has been decided that a trip will not take place this year however, there is scheduled to be one next year. I have also has input on bringing back a particular module for third year students and have given a student's opinion on changing some of the modules on Business and Management. In the meeting I also discussed how we can change our offer holder day experience to make it more effective, by letting the student ambassadors have some time alone with the potential students to make a more informal setting to ask questions.

I have also worked open days for the Business school and promoted being both a course and school rep to up and coming students while talking to current students at different levels to get their opinion of my current plans.

It has been a rather quiet month this month however, most students seem to feel positive about how their course is going.
