

Volunteer Officer Report February 2019

Claire Hodge – School of Pharmacy Rep

What has been worked on in the past month?

Our School Action Day has taken place and was well attended. Useful comments and feedback came out of this.

Additional SSLC meetings were added for both courses within the school, as we felt waiting from before Christmas until March was too long.

I have been working to promote both the NSS and SU elections this month with the help of other reps in the School.

I have attended the MPharm SSLc meeting, College of Science Education & Students Committee and also the College of Science Academic Affairs meeting on behalf of our College Officer.

Successes from the past month and any Reps Wins

We found out that we came top of the university for module evaluation turnout! Award money is being put towards our end of year School of Pharmacy Ball.

School Action Day was well attended and received good feedback.

Year 2 MPharm assignment deadline was pushed back after a late set-off date.

Plans for next month In the next month

I will be spending time going through module evaluation data and analysing this with staff and other reps in the school.

Begin looking at handover plans to the next school rep.

I have multiple meetings to attend, including SSLC, Subject Committees and Academic Board.
