

## UNIVERSITY OF LINCOLN STUDENTS' UNION Vice President Activities Report

This month contained one of the best weeks ever, and I couldn't have done it without the help of everyone at the Students' Union and all the students themselves. Here is what I got up to this September.

### Board of Trustees/ Society meetings/ Competition Grant Panel

The month started with things getting ready for Fresher's week and the year in general. This started with myself and the rest of the officers attending the Board of Trustees meeting, making important plans for the charity for the year ahead following on from our residential. This meeting was productive and reflective as always. I then met with clubs such as 'Art and Tattoo', 'Pool' and 'Cheer' society, discussing their year ahead, getting them ready for the Fresher's Fayre where I am sure they will have loads of interest. Finally I was on the Competitive Grant Panel for our first request of the year, where I am happy to announce that they were successful! A massive congratulations to Sebastian Vicary who will be using the grant money to represent GB at the 2018 Ibiza ETU Duathlon European Championships. I wish him all the best of luck for his competition and his career ahead in athletics.

### BUCS Regional meeting

This month saw Lincoln Students' Union host the BUCS Regional meeting for the first time. This was a great day full of members of BUCS from around the region discussing on how we can improve the leagues and work together for an exciting season ahead. I am very proud of this with the Activities team being enthusiastic and professional as always.

### Fresher's week

Fresher's week 2018 was the most exciting week at the Students' Union for me so far, with so many exciting opportunities I was lucky to be able to take a part in. These opportunities included things such as:

- International Airport Pickup with the VPI
- Help students move in to their new accommodations
- Fresher's Welcome party
- Welcome talks to new and existing students
- Board game and craft beer nights at the swan
- Club MTV
- Sports and Societies Fayres
- The Big Quiz
- Open Air Cinema
- Quack
- Fresher's detox (Zumba and smoothie making)
- Professor Green
- Fresher's Fun House
- Foam Party
- Sports taster sessions (Rugby, Hockey, Basketball, Netball etc.)
- Launch of our new club night Anthem.

Fresher's week has been crazy exciting meeting all our new students and our current ones. From joining in at taster sessions, to talking to students on nights out, dancing giving out give a ways, to help launching a successful brand new club night. Yes, it has been exhausting, but I would not change one single thing. I feel very proud and lucky to have experienced this within the role I am, making memories I will never forget. Fresher's week is only the beginning to an amazing year ahead here at Lincoln. Get ready for big things happening this year!
