

Volunteer Officer Report February 2019

Jessica Hickey – School of Fine and Performing Arts Rep

What has been worked on in the past month?

Within the past month the course reps have been engaging with student feedback and retrieving information that needs to be relayed onto the student union. Course reps have also been working on the course mate issues that have been submitted via student union website.

Successes from the past month and any Reps Wins

Student engagement has been some of the highest we have seen which has been fantastic. The course reps have been attending various meetings with programme leaders etc. Which has helped develop a clear communication between students and lectures.

Plans for next month Next month

Next month we will focusing on organising a drama ball that could potentially develop into the other subjects receiving balls as well. We will continue the meetings attendance and engagement with the students.
