

## COLLEGE OFFICER REPORT DECEMBER 2017

For the past month I have been attending different committee meetings with the following points of action and outcomes:

-Social Science College Board was postponed due to the weather conditions therefore me and my team were not able to attend this committee meeting

-Promote the School Action Day (School of Social and Political Sciences) as it's the School I belong to and attended such day. Go with the different groups of students to try and help them with the different tasks proposed by the Student Engagement Champion (Sue Bond-Taylor) and gathered essential information on how to make student experience better around the school that will also be useful for the College of Social Science as a whole.

-Currently contacting the person who organize the venues around students union to deliver the college ball and what options we could do, organizing this event alongside the team of Social science.

- Informal meetings with the team of Social Science and get updates from them.
- Attended Rep Forum
- Was a busy month as I was running for a paid SU position (VP International) therefore I was quite focused on my campaign, worked and campaigned alongside one of my team members, Jack Dos Reis Silva who was running for VPAA.
- Had a meeting with the Head of College to deliver updates.
