

Volunteer Officer Report February 2019

James Bayliss – College of Science Officer

What has been worked on in the past month?

Over the past month Mod Val has come up in multiple meetings to find improvements in how the system works. NSS action plans have been reviewed by school reps and have been fed into me to form a report for Andy to help with tracking the progress within schools. I have also worked on encouraging school reps to run again if possible in the election. Finally, I am beginning to look through Mod Val data and supporting school reps with this process too.

Successes from the past month and any Reps Wins

One success of the past month is the number of current school reps rerunning in the elections.

Plans for next month

Plans for next month will be to have a meeting with Libby and the academic societies to help in the planning for hand over of the committee roles and to offer support from the college in this process and with planning for the next academic year. Also planning ahead to next academic year to try and make sure that all school rep roles are filled by September.
