

UNIVERSITY OF LINCOLN STUDENTS' UNION

Vice President International Report

International Quiz

On the 23rd November, I organised and held the first international quiz of this year for international students, the theme of the quiz was about country, language, culture, geography. We had 27 international students attend on the day with 6 groups in the Swan, and the winning team won 5 free tickets for the next international students Manchester trip.

ISA

In the last month, I have been working closely with the ISA officer, Mohit. We were both planning events such as International Quizzes. Also, I have also supported Mohit on his project such as the Flash mob dancing, the Vietnam students' flash mob will take place on the 26th November in front of the Minerva building to celebrate Vietnamese teachers' day. I also been working with Mohit on the International student's talent show which will take place in February.

ISA committees also had their first meeting with all their committee members, it was great to hear their discussion about their plans.

Update: International buddy scheme

I have given the new task for this month to international Buddies, they have the option to share food with each other or to watch our sports team's BUCS match and support Lincoln, there is still a week for students to complete the task and bring back the feedback form to me. The feedback so far that I received are positive. In the future the activities for buddies will be more open and more flexible to choose.

Airport pick up survey

In the middle of November, we were running a survey for international students to find out how can the university provide the best airport pick up service for international students, we have got 59 feedback so far, the answer from the feedback from showed that international students travel to different airports in the UK and majority of the them would like to use the airport pick up service to come to the university. Students want the service to be more flexible to use, I will feedback their suggestions to the university

Postcard campaign

I have been working with our campaigns team and marketing team to deliver a postcard campaign for our international students, as some international students cannot travel back to their home country for Christmas holiday, we will help our international students to post

a Christmas card to their family to bring new year wishes to them and share their experience to their family.

Trips

The Liverpool trip on the 10th November was a great, we had 101 international students attend on the day, and students had fun in Liverpool from their social media post. The next trip will be on the 1st December to Manchester.

Other activities

I have been supporting Grace and Emma with the RAG week, I took part in the sponge a Sabb activities as well as the chilli challenge to encourage students raising money for charity.
