

## Volunteer Officer Report March 2019

Holly Tyres – Community Officer

What has been worked on in the past month?

In the last month we have confirmed and fully planned our main event for Move-Out May which will take place on the 25th May, and have been in contact with various organisations who will hopefully benefit from events taking place across the rest of the month.

Successes from the past month and any Reps Wins

The main success of the month was Make a Difference week, I led the volunteer day at Mansions of the Future and it was so great to see everyone getting involved! The Carholme Clean-Up also went really well. Committee meetings are held each week to keep up to date with committee progress, and we fully planned and confirmed bookings for the event taking place on the 25th May in conjunction with the Environmental and RAG officers.

Plans for next month

The next month will be all about confirmation of marketing ideas and planning each day of the month individually to maximise the impact we can have on the student community. Advertisement for the campaign will be released before the end of the month so we will be busy preparing for this and designing mini-games to get students as involved as possible.
