

## **University of Lincoln Students' Union Volunteer Officer Report**

**26<sup>th</sup> January 2018**

**Glen Allison**

**College of Arts Officer**

### What has been worked on in the past month:

Issues raised this month include:

- Journalism and joint Journalism students have expressed concern with their contact hours and course content. This was expressed in the form of an unapproved survey, which was brought to the attention of Tommy George. I have worked with the Journalism Course Rep who has met with Jason Whittaker. When the minutes of this meeting are made available I intend to meet with the students on these courses and discuss the outcome.
- There has been a distinct lack of engagement with the School Rep for English. I have discussed this with Tommy George and I intend to meet with her in the near future to discuss the importance of this role.
- The engagement day with Heads of Schools provided a valuable learning experience and I feel comfortable approaching my school and course reps and assuring them that we have continued support from these important contacts.

### Successes from the past month:

Students feeling pleased we secured a printer on 4<sup>th</sup> floor AAD. Further work needed to secure a plotter for design students.

### Plans for next month

- Disseminate information from Katie's meeting with Jason Whittaker and the Journalism cohort.
- To continue to support school and course reps and ensure students' issues are being listened to.
- Provide an opportunity for more students to contact me directly, in light of lack of engagement from Course Rep for English
- Discuss opportunities for movement of plotter or acquisition of a new plotter for AAD.
