

UNIVERSITY OF LINCOLN STUDENTS' UNION

Vice President International Report

International Party

International party in March was successfully hold in the platform on 15th March.

We had 41 international students from different countries who attended the party, students enjoyed the Karaoke, snacks provided by the SU, and they also played the traditional music lists from their own country and dancing with each other which brought a really good atmosphere to the event.

ISA

ISA nomination has been closed, we have 6 people in total who nominated themselves for different positions, I have get in touched with the majority of the candidates and read their manifestos, all of them have well prepared plans and ready to bring something different to international students, I am looking forward to working with the winners to bring ISA going forward.

Easter Quiz

Egg-cellent competition quiz was successfully hold on the 7th March alongside with English language centre, the programme included quiz, chocolate spoons racing, and team building activities as well as prize draw. Students not only had funs with games, but also gained knowledge around Easter as well as improved English by communicating with each other.

Accommodation issues

Recently, we have had feedbacks from international students that Pavilion has stopped providing rebooking system for students who are going to stay in pavilions for next year, as Pavilions is the most popular accommodation for international students, international students might be struggled to find accommodations

somewhere else for next year, I have feedback the issues to the accommodation office, and try to find a way to guarantee their accommodation in the future.

Trip to Chester zoo

Our upcoming international student's trip will be on 24th March and we are going to Chester zoo. We have sold out the tickets in advance and students are excited for the trip!

Other Activities

I also took part in different activities e.g. sports relief, as well as helped filming Defeat the Heat challenge video alongside with Tommy, the video was well received with 2k views on social media.
